## New Noxious Weed Make Appearance In P. R. Country

Says J. L. Kerna, With Provincial Field Crops Branch, After Covering Extensively The Peace River Farmers Advising To Watch For These Weeds—Cutting Should Be General by August 15 In Many Districts.

J. L. Kerna, with the Provincial Field Crops Branch, who has been covering the Peace River country, was in Grande Prairie on Monday.

He reports crops ripening fast, with cutting started north of the Peace, in the Fairview district and north of Grande Prairie. Cutting of the main bulk of the crop, he said, should start by August 15 in most districts.

Mr. Kerna reports the appearance of several new weeds in the Peace River and asks that farmers watch for these this fall during cutting and harvesting. Some of the new weeds in bloom now and every farmer should go over his fields before the seeds blow. The weeds can be easily seen as the bright yellow blossoms usually grow from one to two feet higher than the grain.

However, another very bad weed, observed Mr. Kerna, has been located both north and south of the Peace. Farmers are advised to watch for this weed while harvesting. It is a short, innocent-looking, perennial with a heavy root system. The plant looks like bird's mustard, some stems have seed pods and flowers resembling stinkweeds.

Toad Tax and corn spurre, hitherto absent, have been shown up recently in several isolated districts. Both are extremely hard to eradicate and should be worked out.

In many sections the road surfaces are polluted with weeds. This condition has been aggravated by soil disturbance during the past two years. Farmers adjacent to these roads are asked to assist in keeping these weeds down. A small strip of grass should be left on the roadside to assist in holding the road surface and will help hold weeds in check, said Mr. Kerna.

Mr. Kerna, he added, should take particular pains to clean machines before moving to a new setting.

Thresholds, fences and weed cards can be obtained at the District Councillor's office or from the Department of Agriculture, Edmonton.

Any farmer wishing information regarding these weeds may obtain the bulletin, "Weeds of Alberta," free of charge by writing to the Alberta Department of Agriculture.

## Town Fathers After Month Holiday Deal With Much Business

Determined To Enforce Traffic Laws, Violations Of Which Was Drawn To The Attention Of The Community By Councillor Porteous—Pile Of Details Claim Greater Part Of The Time Of The Meeting.

After a month's holidays the town fathers found themselves in a huge amount of business, disposal of which, on Wednesday night, The following present: Mayor Lawlor, Councillors Porteous, Watson, Smart, Charters and Bentley. Accounts were given for which were general, \$1,16,16; unemployed relief, \$172; medical aid, \$245; children's welfare, \$63; indigent relief, \$18; dredging of the river, \$60.50; mother's allowance, \$1425; labor, \$604.90. Total, \$2,159.66.

Councillor Porteous drew the attention of council to the fact that some drivers were breaking the speed limit on the town's principal street, thereby endangering property. Mayor Lawlor stated that he would take the matter up with Constable Harper and would instruct him to see that the traffic rules were lived up to.

Handing of detail business took up the greater part of the time of the meeting.

## Provisions Of The National Housing Act Attractive

The town of Grande Prairie has received a letter from the Department of Finance with regard to Part III of the National Housing Act.

Under provision of this part of the Act, if the town will pass a by-law or resolution agreeing to sell a number of specified lots at a price not exceeding \$1,000 each, the town of the town are eligible for the following benefits, if they can establish through their supplies to the town, a house not in excess of \$4,000, and that the construction commenced before July 31, 1939, the house was built by the applicant's own use, and that he is now occupying it:

(1) One hundred per cent of the general municipal and school taxes levied upon such house for the first tax year.

(2) Fifty per cent for the second year.

(3) Twenty-five per cent for the third year.

## Heat Played Havoc With Crops In Manitoba

STATES JACK OATWAY

That the heat played havoc with crops in Manitoba, was a statement made to The Tribune reporter by Jack Oatway of the Claiborne district, who was in Grande Prairie last after an absence of five weeks. Jack stated that he saw wheat that should have yielded bushels to the acre and the farmers got ten bushels they would be lucky.

The trip was made to Winnipeg by Jack to visit his sister, who was seriously ill. He was glad to report that she has almost completely recovered. Miss Mary visited here last summer.

Jack also visited relatives at Dominion City, where he lived from 1896 to 1900. He was pleased to see the crop here so far advanced.

## STARTED CUTTING WHEAT LAST TUESDAY AFTERNOON

Jack Hartnell, farming two miles west of Grande Prairie on the highway, commenced cutting Red Bobs wheat last Tuesday afternoon.

E. J. Young, who was in town on Tuesday, stated that cutting would be pretty general in his area next week.

Sam Pickles, farming three miles west of Grande Prairie, started cutting his grass, heavy that he had to cut it out way. Sam says that he has a wonderful crop, but this having to cut it out way got his bannys.

## Average 20 Bushels Wheat, North Side Says Jack McNeil

Jack McNeil, superintendent of the G.G. elevators on the north side of the Peace, and E. J. Young, traveller for the organization department of the G.G., spent the weekend in the Prairie.

Seen by The Tribune reporter, the two stated that in appreciation of the patronage received they were putting on movie pictures at different points in the Peace River of the United States, Canada and the United States, grain pictures, etc.

In answer to a question regarding conditions on the north side, McNeil stated that an average of 20 bushels of wheat is expected.

However, another very bad weed, observed Mr. Kerna, has been located both north and south of the Peace. Farmers are advised to watch for this weed while harvesting. It is a short, innocent-looking, perennial with a heavy root system. The plant looks like bird's mustard, some stems have seed pods and flowers resembling stinkweeds.

Toad Tax and corn spurre, hitherto absent, have been shown up recently in several isolated districts. Both are extremely hard to eradicate and should be worked out.

BLOCK MEMBER PROMISES  
SUPPORT TO MONKMAN  
PASS HIGHWAY

According to the Peace River Block News, Glen E. Braden, member for the Peace River constituency in the British Columbia legislature, in addressing a Liberal convention held at Dawson Creek on July 26, in response to a question from a reporter, said: That since he now holds the assurance of Mr. Turgeon that the Peace Pass would be completed in 1940, he would feel justified in a session in asking that some assistance be given the Monkman Pass project, but felt that the first request should be to provide a survey to establish the feasibility of the route. He advocated a tie-up with Tupper Lake, and a road to connect with the Monkman road.

The news that Mr. Braden has seen his way clear to support the Monkman Pass highway, which has not only received with satisfaction not only by members of the Monkman Pass highway Association but by all others who believe that it is feasible and necessary to further the development of the entire Peace River area.

Mr. Braden, being a supporter of the Patullo government, will be a tower of strength to the cause. He is a fighter and a man who is not likely to throw his influence in with those who have been battling for the construction of the Monkman Pass Highway. We can feel assured that he will do so.

SOW THISTLE REARS ITS BROAD AT GRANDE PRAIRIE

On Saturday, while wandering along Grande Prairie's main stem, I stopped to listen in at a sale being made by the Imperial Bank, the auctioneer being none other than Jack Holton, whose voice is of such quality that it is not necessary for those occupying positions on the outer circle to call "Louder!"

There was a bumper crowd at the sale, and it was in full blast when the writer arrived.

Someone, who evidently came from the country, said out loud, "sow thistle which was four and a half feet high, growing on the lots."

Bob Cochran and Joe Tissington, members of Grande Prairie's municipality, who always have a weather eye open for noxious weeds, drew my attention to the plant, which was growing in the lot of the Tisser. A further examination revealed the fact that the plant was mothering a whole flock of little ones, some of which seemed to be staying out on their own, as they were some distance from the parent plant.

There happened to be many farmers at the sale and when the report got abroad that there was a sow thistle in the lot, the majority of the tillers of the soil during the afternoon examined the plant and—believe it or not—the majority did not know what the plant was. The explanation lies in the fact that the "bad actors" of the noxious weeds have been practically unknown in these parts.

The incident recalls an incident which occurred at Grande Prairie some years ago when Mr. Justice of Legs who was weed inspector for the entire Peace River for two seasons, exhibited at the fair show samples of the "bad actors" of noxious weeds. Naturally there were many farmers present in that section of the fair. Mr. Justice is the name of this weed! Mr. Tisser, asked while the writer was present, with an odd expression, the farmers could not name the plant.

It is thought that Mayor Lawlor, who hails from Manitoba, where the sow thistle has plagued such havoc with farmers in past years, to have planted the plant and when his attention is drawn to the fact that a sow thistle is growing in the middle of an apple tree within the boundaries of the town, it and its brood will be immediately mothered to death.

The incident caused considerable excitement.

Dad's Notions  
By E. S. Stanley

What is a good citizen? Does he obey all laws without question, or does he plan his own reason and judgment above the law?

Says Anne Weaver: "Without a few questions asked, and a few laws changed, I am afraid we would not progress."

To the statement that obedience to law is liberty; without such obedience there would be political chaos and anarchy, Mrs. Mouse replied: "That is one of the most ridiculous statements I have heard. In a certain per cent of the changes, the law is better, and in a certain per cent of the changes, it is the case, that is, it is a good citizen who obeys that law simply because it is right."

W. D. ALBRIGHT, Chairman, J. ARCHER, Secretary, Beaverlodge, Alta., Aug. 7, 1939.

## THE NORTHERN TRIBUNE

The Holiday of Escape By W.C. Pratt

The trip which I will endeavor to describe will go along the road not to reality, but to rest cure for one member of our party. Our family doctor said: "That's high dry air there, that hills of Arizona air we should call 'breathable escape."

The trip from Grande Prairie was made without incident, only the plowing of surface mud for almost four hundred miles. Reaching the first night at the Kakwa Lodge, owned by the Athabasca Hotel, we proceeded next day to Edmonton and on south. A pass was made to Monkman Pass, our respects to Mrs. Brown, formerly of the Grande Prairie Municipal Hospital staff but now a valued member of the Kakwa Club Hotel staff. Miss Brown is happy in her new position and enquired about me.

Clouds came in, Babbs was only a master of form. I carried a letter from The Royal Bank of Canada, Grand Prairie, to the immigration officials, and they must have assured them that if I did not return they would bring me back, for all they could say was "our name and the color of our eyes."

Babbs is at the entrance of the Glacier National Park. There is good fishing in the potato fields, but as we did not hold fishing permits all we could do is sit around and listen to the radio. One evening he had caught a 45-pound trout last year, and as it was told for my benefit.

The trip through Glacier National Park and on down to Yellowstone National Park is very similar to going through the Canadian Rockies via the Crowsnest Pass.

Yellowstone National Park is known the world over. Its greatest attraction is the geyser named "Old Faithful". This geyser explodes every 77 minutes, shooting 28 pounds of water and steam 150 feet into the air, and after dissipation of the sun's heat to juice he told me how a tire was manufactured. He sold Ford cars and explained that we were not driving a Ford. He explained all about friction on tire on pavement. He lived in Detroit once and then in Canada, and when he got back to Detroit he gave us a tip that puts Jack Watson and O. B. Hause in the background as Ford dealers. The best advice he gave us was: "When crossing a deep kink in the road, shut your mouth shut so the palate won't get dry." I wondered how he would ever get across the desert.

As I write these words we are in an auto camp at St. George's, and tomorrow we will start across the desert and visit Boulder Dam.

Don't forget—The Tribune is best.

ALBERTA WHEAT  
POOL NEWS NOTES

The Alberta Wheat Pool is a small portion in Montana and Idaho, but the largest national park with a capacity of two million bushels, located at Port Arthur. The deal was made due to the necessity of having additional terminals for increasingly large eastern shipments from Alberta. The Pool owns a five million bushel terminal at Vancouver, and a two million bushel terminal at Alberta, grain handled by the organization will still be diverted westward.

Acres under wheat in Alberta this year total 8,379,000, the largest in history of 8,300,000. The acreage was seeded in 1932, name, 8,200,000.

The Alberta Wheat Pool has its place to go ahead with its plan to take care of excess marketings over the 5,000 bushel limit permitted to go to market. It is to be soon under the federal government regulations in connection with pooling are announced further details will be published by the Alberta Wheat Pool.

The International Institute of Agriculture at Rome estimates European crops 14 per cent lower than last year. Spain has a comparative year crop this year and shows a large import. Rains have damaged the crops in Germany, France and Italy.

The last week in July was one of the most disastrous seven days in Alberta's agricultural history. Extreme temperatures prevailed over the wheat south. Empress was the hottest spot in the province, registering 100 degrees of heat.

HIGHLIGHTS FROM THE M.R.A.  
WORLD ASSEMBLY, CALIFORNIA

MONTEREY, Calif.—Brig. Gen. W. G. Beaman, D.S.O., former commander of the Canadian military districts, challenged the war veterans to become "new shock troops" of the R.A. He spoke during the second session of the Second World Assembly for Moral Re-armament.

Participants in the day's first broadcast included H. W. "Bunny" Austin, British tennis star; R. S. Keeler, Japanese boxer; C. C. Broadhurst, Canadian cowboy film actor, and George L. Eastman, past president of the Los Angeles Chamber of Commerce.

men, designed and worked by everybody," and said: "What we need in America is national unity."

Hon. Philip Motu of Geneva, a member of the British Parliament, stressed that "democracy can only compete with autocracy when the individual is more responsive."

The conference meeting was keynoted on a statement read by Philip Motu of Geneva, and by the chairmen of five principal political parties, which said: "Democracy can only stand secure if the soundness of its moral and spiritual armaments is assured."

Greetings were brought from French Ambassador, M. Georges, and Rabindranath Tagore, Indian author and philosopher.

SAN FRANCISCO, Aug. 2.—"Dawn patrol" of 50 men and women launched the Moral Re-armament Day at the Grand Hotel International. A special short-wave broadcast to Asia, Australia, South Africa and the Far East.

The 6 a.m. ceremonies began a day-long series of broadcasts and speeches from nearly 30 nations who came here after a world assembly which ended at Monterey Sunday night.

Speakers from India and Japan urged man to end war and to end the influence of power politics by harnessing the innate goodness and goodwill of every nation and every individual.

Premier Hiraman said: "The hope of civilization lies in the moral and spiritual forces of man. Let us pray for the welfare of man." In his second world assembly and hope that the Moral Re-armament of the nations will bring international peace.

Participants in the day's first broadcast included H. W. "Bunny" Austin, British tennis star; R. S. Keeler, Japanese boxer; C. C. Broadhurst, Canadian cowboy film actor, and George L. Eastman, past president of the Los Angeles Chamber of Commerce.

TWENTY BUSHELS OF WHEAT  
FORECAST FOR HYTHE DIST.

H. W. Webb and son, Frank, and Mr. and Mrs. Wiebe of Hythe on Monday.

In a conversation with The Tribune reporter Mr. Webb, Sr., gave it as his opinion that wheat in the Hythe area should average twenty bushels per acre.

Mr. Webb further observed that he would be cutting Garnet wheat on the 12th of the month, providing the present weather continued.

### Save Saskatoon Island From Fire

A considerable number of campfires have lately been built by boys, picnickers, and others on Saskatoon Island. While none has yet escaped, there is grave danger, if the weather is dry and the winds blow, that some one day may fail to extinguish a fire, or that a sudden gust of wind will come and whip sparks from a campfire into a dry field or forest, making it impossible to prevent the conflagration over-running the whole island. The trees and the beauty of the place, besides sweeping away the United Nations' experimental park recently erected there, as well as many smaller buildings. It goes without saying that everyone in the country should do their best to help the Local Advisory Committee, which cooperates with the Provincial Parks Board, is anxious to avoid it.

A camp stove or a shelter has been erected near the bathing beach and there is another place near Mr. Wiebe's house where rocks have been piled together to make a campfire.

## Interesting News From Sexsmith

Vol. VIII. No. 8

By R. A. MACLEOD

August 8, 1939

Grain Field Day  
Worthy Better  
AttendanceAbout Forty Farmers Present—Were  
Well Repaid for Coming—Event  
Sponsored by Northern Alberta  
Pacific And Midland Pacific.

The Grain Field Day held at Sexsmith, Saturday, August 4, was not as well attended by the farmers as it should have been, which was their loss. However, there was a worthy entertainment and we believe they were well repaid for coming.

The three elevators sponsoring this field day were the Northern Alberta Pacific and Midland Pacific. We understand that the experimental plot was put in under the supervision of Mr. Dave Sutherland of the Northern Alberta Pacific.

Mr. E. C. Stacey, one of the staff of the Experimental Substation, was the first speaker. He gave a very clear explanation of the different varieties of wheat, oats, barley and rye, and the good and bad plots on each and their adaptability for this Peace River country. These plots had been sown with registered seeds, and because there were other plots sown with seed taken at random from different farmers in the district. There was a marked difference between the good sown plots and the others very good in favor of the former.

The other speakers were Mr. W. S. Scammon, Agriculturalist, Grande Prairie; Mr. Cowan, of the Central Experimental Farm, Ottawa, and Mr. Foulds, Dominion cerealist of Calgary.

## SEXSMITH LOCAL NEWS PARS

Mr. and Mrs. Bob Sharp and family, who vacationed in Vancouver for the past month, arrived home on last Tuesday's train.

Messrs. L. B. Reese, M. Reese, C. Reese and Mrs. Reese, Jr., of Fairview, Oklahoma, also Mrs. Jack Prat of Daugh, Alberta, are visiting at the home of Mr. and Mrs. Dean Wynn.

Roy Bratten, who has been visiting in Vancouver and at other western points for the last three weeks, arrived home on Friday's train.

Mr. and Mrs. S. W. Smith and Isidor and Ruth, of the Kinsella River bridge on the Monks Pass road, arrived back on Saturday and took a short trip to Edmonton, returning home on Saturday evening.

Mr. Marion White, who has been on one of the boats running out of Fort McMurray for the summer, returned home last week.

Mr. and Mrs. M. E. Rands, Sutherland, who left here on Sunday, July 30, to attend the funeral of Mrs. Sutherland's mother at Grenfell, Sask., were held up on the road by bad rains, and not being able to reach their destination stayed at Edmonton, returning home on Saturday evening.

Mrs. J. Meen and Miss Bertha Meen, who have been visiting Edmonton for the past five weeks, returned home by car on Saturday evening.

Mr. Stanley Rands, who is on the staff of the Alberta College, Edmonton, took his wife, the widow of his brother and sister-in-law, Rev. and Mrs. E. Rands. He expects to be here about two weeks.

Mr. and Mrs. Reg. Little and family were Wednesday evening last by car from Westlock, where they visited for the past ten days.

Miss Theresa Bowtell of Beaver Lake, guest of Miss Dorothy McMillan, Sexsmith.

Mr. H. M. McMillan, who has been taking medical treatment at the Mayo Brothers in Rochester, Rochester, Minn., for the last three months, is expected home this week.

Mr. J. A. Simonsen of Grande Prairie is staying at the home of Mr. and Mrs. Joe LeBlond, Buffalo Lakes.

## THE NORTHERN TRIBUNE

## DIMSDALE NEWS

## VACATION SCHOOL

DIMSDALE, Aug. 7.—An innovation in vacation activities for children will be featured by Rev. N. J. Max, who will hold a "vacation school" in Wapiti school-house August 1 to 18, inclusive. Music, singing, dancing, games, etc., will provide an instructive and enjoyable holiday for all children wishing to attend.

## PLEASED WITH NORTH COUNTRY

Mr. James Massin of the Regina Jail staff and Mrs. Massin passed through Dimsdale Friday, en route to Millarville, where he is visiting friends. Mr. Massin expresses himself as very pleased with the crops and the people of the north country. Heat and grasshoppers are ruining the Regina crops and we here are in a most fortunate position, he says.

Mr. Howlett, who takes over Wapiti school on September 4, is the district school teacher last to give his new location the once over.

## APPRECIATION OF CLINIC

Although the clinic is late, we pass over the clinic held at Pipestone Creek on July 27 and 28. The clinic staff of doctors, dentists and nurses, who had to travel a great distance, performed a very useful and necessary work, in fact they were in many cases a lifesaver.

Mr. A. K. Watt is to be heartily congratulated for his work in securing the services of this clinic and for the capable and professional help which he arranged, commendable accommodation, a staff of helpers, comprising carpenters, stretchers, stretchers, nurses, assistant cooks, waiters, etc. Mr. Watt spared no expense—and we are informed that it was his own pocket that bore the expenses of the clinic in the event of a success. We all owe Mr. Watt at least a vote of thanks.

## CROP REPORT

Hundreds of curious onlookers prevented the fulfillment of what promised to be a most interesting trailer wedding at Ottawa. The coming in crowds as couples began to gather, the bridal party slipped away to the rectory. St. Luke's Anglican Church and were married. Here are the bride and groom at the door of their home. Photo: Dominion, 17, of Ottawa, and James Snider, 20, of Russell, Ontario.

## GORDONDALE

## ALONG THE RED WILLOW

## CROPS VERY GOOD

RIO GRANDE, Aug. 5.—The crops are in the way of very good. We have seen all here so far. Hope the good luck continues.

## BALL GAMES

Ball games are plentiful with our mixed teams and girls' teams. West End and Rio Grande mixed teams

played a good game at Mount Valley Sunday.

Hazelmore took West End into camp the same evening.

Rev. Mr. Howlett, hard ball and ladies' softball teams headed to Beaver Lodge and returned home carrying the honors. Hard ball score was 16-5 in favor of Rio Grande. Softball score was 16-5 in favor of Rio Grande.

When does the Ingledew—Ri

Grandale game come up?

Wedding bells started ringing last week and it seems the echo is still resounding.

## BARN DANCE BIG SUCCESS

The big barn dance at Cook's last week was a great success. Very good time was had by all. Thanks boys and Mr. and Mrs. Cook.

## HAPPENINGS

Allen making tracks when he hit a home run.

Eddie running very fast to keep up with the game.

Grande Prairie was well represented at the last few dances.

Orange crush was quite plentiful.

It makes one seasick way up in the loft.

## LAKE SASKATOON

## MR. C. COPWER WINS QUILT

WASCASATOON, Aug. 7.—The beautiful quilt made by Mrs. Ben Fert, of the Community Club was raffled off at the Oldtimers' picnic and dance. Mr. C. Copwer bought the lucky ticket. This banquet celebrated the twenty-first anniversary of Grande Prairie, Mr. and Lake Saskatoon's 25th anniversary.

Everyone is nearly through haying. Berry-picking seems to be the order of the day now.

## MASONIC BANQUET BIG SUCCESS

The Masonic banquet that was held at the Memorial Hall was a great success. A large number of the Masonic order decorated tables, the Masonic colors, blue and gold, being carried out with flower and table center pieces. A large number of the Masonic order attended. The birthday cake made by Mrs. Mrs. R. Ingledew of Halcyon, Rev. K. L. Sandercock of Wembly followed the ceremony.

Following the marriage service a wedding supper was served at the home of the bride's brother, after which the bride and groom departed for their unknowns.

We wish the happy couple the very best of health, wealth and happiness.

## SHOWER FOR BRIDE TO BE

On Monday, July 31, a miscellaneous shower was held at the home of Mrs. M. H. Funeral in honor of Joyce, daughter of Mr. and Mrs. Hunkins of Guernsey, who were married at the home of Mr. and Mrs. R. Ingledew of Halcyon. This banquet celebrated the twenty-first anniversary of Grande Prairie, Mr. and Lake Saskatoon's 25th anniversary.

## MORE SCHOOL ROOM NEEDED

On Tuesday, July 30, a large hall was rented by the Orange Hall at Halcyon for use as a school, as the new school built last year will be much too small for the present number of students expected this fall, when over sixty pupils are expected to register.

## SOME FRUIT

We were down by Art Hall's the other day but one of his carrots had got across the road. Being unable to get across or around it, we had to turn back.

## BIG RAIN WAS BIG HELP

Farmers are all busy checking up on binders and some are busy cutting their fair with crops in this district. The rain looks too bad. The big rain sure helped.

We regret to report that Mr. Fred Frewer was taken suddenly ill on Saturday morning and was rushed to Grande Prairie Municipal Hospital.

A large number of people were expected this fall, when over sixty pupils are expected to register.

## THE LAKE SASKATOON SOFTBALL TEAM

The Lake Saskatoon girls' softball team brought home the honors from the Wembly sports, defeating both Wembly and Twilight. The latter was the only team to win all the games of the day's sports, judging from the keen interest displayed by all fans.

## COMMUNITY CLUB MEETING

The monthly meeting of the Lake Saskatoon Community Club was held at the home of Mrs. Jack Sutherland, ten members being present and three visitors, Mr. and Mrs. Eric Wilson and Mrs. Rawson.

## DICK SOLOMON WAS A SUNDAY GUEST

At the Robinson home.

## MALCOLM MCARTHUR CALLED ON BUD TROTTER LAST SUNDAY

Mr. F. Lewis and Jack have gone to Edmonton for a three weeks' holiday.

Malcolm McArthur called on Bud Trotter last Sunday.

## MR. F. LEWIS AND JACK HAVE GONE TO EDMONTON FOR A THREE WEEKS' HOLIDAY

The Raymond family were Grande Prairie visitors last week.

## MRS. R. PERRY IS WORKING FOR J. HARRINGTON

Gilbert, beware! Trotter's goats have horns, now!

## MOUNT VALLEY

## MOUNT VALLEY, July 26.—On Sunday, July 23, the ball team met Elmworth at the bridge. The score ended very much in Elmworth's favor.

Jack Barker was calling on the housewives with a "Meat for Sale" sign.

A good time was had by all who attended the dance at Rio Grande Monday last. Even a better time was given by the pick-up orchestra Thursday night. The entertainers were too numerous to mention, so the city failed to arrive, so Noreen, Murray, Ed. Brown and Joe played till the wee small hours. The highlights of the evening were the supper and a car-load of prancers from Grande Prairie arrived in time to enjoy "Home Sweet Home," this week.

A few attended the dance at Iipay Friday night.

Earl Nichol is busy rounding up a road gang.

On Sunday afternoon there was a softball game on the DeBolt diamond, between Mountain Springs' team and DeBolt. The score was 21 to 19 in favor of Mountain Springs.

Mr. and Mrs. Bert Nicholson returned last week from several weeks holiday spending in Edmonton and points in southern Alberta.

Kathleen Guthrie of Grande Prairie was here, her sister, Mrs. Mrs. Fawcett, this week.

Mr. Jake Fehr, Mr. and Mrs. DeBolt were visitors at the D. D. McArthur home at Sturgeon Heights on Sunday morning.

H. E. DeBolt was home over Sunday from Spirit River.

On Sunday afternoon there was a softball game on the DeBolt diamond, between Mountain Springs' team and DeBolt. The score was 21 to 19 in favor of Mountain Springs.

Mr. and Mrs. Bert Nicholson returned last week from several weeks holiday spending in Edmonton and points in southern Alberta.

A few of the young people went with the Rio Grande hard ball and Sunday to the Beaver Lodge on Sunday to rock. The teams came home victorious. The gang stopped at the bridge for supper.

## WHAT THE EAVESDROPPER SAW AND HEARD

Hazel shaking her fist at the dawdler across the river.

Hicky and Pete sailing by till they got to the three-mile line. How were the fish, boys?

Did you enjoy "Home Sweet Home," Patsy?

Were Delbert's trips up here purely business? I wonder.

Patsy is home for the summer. Or is she?

## RESERVING DEFENSE

A prisoner was being tried for theft, but it was found, on proving his innocence, that he was actually in the country at the time the theft was committed.

"Why didn't you say so?" asked

"Your Lordship," replied the prisoner, "I was afraid of prejudicing the jury against me. They might have thought me a wrong 'un."

## CARD OF THANKS

Mr. and Mrs. Ed. Holmberg of Spirit River wish to thank their friends for their kindness and help during their recent bereavement.

Mr. and Mrs. Bert Nicholson.

## MIDLAND &amp; PACIFIC GRAIN CORPORATION, LIMITED

"The 'Midland' agent will have the latest news of arrangements for marketing Board and Pool wheat and coarse grains. See him."

THURSDAY, AUGUST 10, 1939

## SCENIC HEIGHTS

NEARING HARVEST  
SCENIC HEIGHTS, Aug. 4.—If the warm weather continues the farmers in this district will be harvesting in another week. Early morning and evening, however, everyone is nearly through haying. Berry-picking seems to be the order of the day now.

## SPORT NEWS

In the Farmers' Softball League Bear Lake team topped the list with 11 points. Scenic Heights 10 points and Meadowlark 6 points.

Scenic Heights and Buffalo Lakes had their first game on Saturday.

Buffalo Lakes winning by the narrow margin of one run.

Buffalo Lakes are scheduled to play Bear Lake Tuesday, August 8, to decide the winner of the Farmers' League.

## LOCAL BRIEFS

Several from this district attended the Wheat Pool meeting and picture show at La Glace last Saturday evening.

Paul direction gave a very interesting address on what the Pool is trying to do to help the wheat situation.

Jack Powell, R. E. McArthur and Armand Lasserson returned home from the Bay camp at Saskatoon Island this week. They report a grand time and how to get along.

Miss Elizabeth Smith of the Dimsdale district has been visiting at Don Patrick's for a week.

A little while ago, it was whispered that wedding bells will be ringing in this district in the near future.

Mr. and Mrs. Hugh Dool left Tuesday on a motor trip to Sunset Prairie, where they will visit Mr. Dool's brother.

## STURGEON HEIGHTS

STURGEON HEIGHTS, Aug. 7.—Miss Opal Boe of Delco is visiting her sister, Mrs. R. D. McArthur.

Mr. Lutz and Miss Thompson of Grande Prairie were recent visitors at the Trotter home.

Dick Solomon was a Sunday guest at the Robinson home.

Malcolm McArthur called on Bud Trotter last Sunday.

## MOUNT VALLEY

## MOUNT VALLEY, July 26.—On Sunday, July 23, the ball team met Elmworth at the bridge. The score ended very much in Elmworth's favor.

## ILLUSTRATED NEWS OF THE WEEK

A SPECIAL TRIBUNE FEATURE  
THE BEST OF THE WEEK'S INTERESTING NEWS PICTURES

**GIANT BOMBER CROSSES ATLANTIC IN 15 HOURS**  
Built in California, and the first of six of similar type machines, this is the first huge flying boat to be "flight delivered" across the Atlantic. It made the trip from Botwood, Newfoundland, to Felixstow in 15 hours, and was turned over to the British Air Ministry.

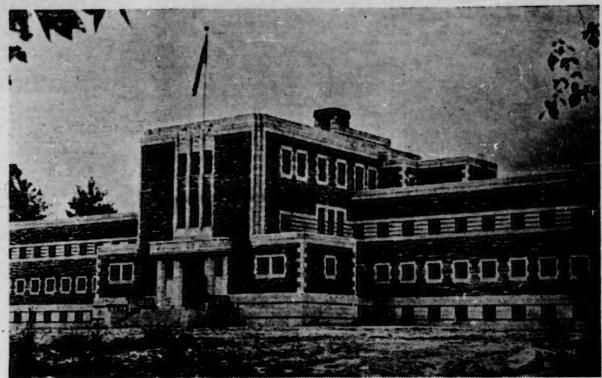

**A LONDON ANTI-AIRCRAFT UNIT IN TRAINING**  
This photograph was taken at the camp near Watchet, Somerset, where the 51st London Anti-Aircraft Regiment (Territorials) are in training, and shows firing practice with 3.7 anti-aircraft guns. The far gun is being fired at a target towed by an aeroplane over the sea in a patrolled area.

**JAPANESE OCCUPATION OF CHUSAN ISLAND**  
Japanese soldiers in action after landing on Chusan Island. The island's chief port, Tinghai, is 120 miles south of Shanghai, at the mouth of Hangchow Bay, the original British settlement on the China coast.

**MODERN MISS HAS SEVERAL SWIM SUITS**  
The busy modern young woman who spends as much leisure as possible on the beach makes sure that she has more than one suit for swimming or lounging on the sand. Why not a different swim suit occasionally? These models show three types that would fit in any girl's wardrobe. They are being worn by Misses Linda Hayes, Laraine Day and Alice Eden.

**A CANADIAN PRISON WITHOUT BARS**  
The new county jail at Hull, Que., first and only one in Canada to have bar-less windows, which will be ready for occupancy shortly. Windows have double glass panes which are set eight inches into the walls. The building is said to be the only one of its kind in the British Empire.

**DEVELOPS BETTER LIGHT**  
Dr. Leslie E. Howlett, Ottawa, of the National Research Council, has perfected an artificial day-light, which is better and more reliable than that for color grading of furs, paint manufacture and other industries. In Prince Edward Island, furs were best graded by north sky-light, which was subject to great variations. The Department of Agriculture asked the Research Council to work out a more satisfactory system, and Dr. Howlett did it.

**CARDINAL VILLENEUVE RETURNS FROM EUROPE**  
A new portrait of Cardinal Villeneuve, Archbishop of the Roman Catholic diocese of Quebec, who has recently returned to Canada from Europe. This photograph, taken in Rome, shows His Excellency in his Cardinal's robes.

**EUROPEAN EYESFULS FOR U.S.**  
In the United States to question the supremacy of American beauties are Joyce Claxton (left), "Miss London"; and Andree Lorraine (right), "Miss Paris." They are pictured upon arrival at New York.

## Edmonton High-Lights In News

EDMONTON, Aug. 6.—The era of horse breeding is gone, provisions of the 1939 Land Act going into effect August 2. From this time on settlers will lease government lands for 20 years, and the lease is renewable for another 20 years. No rent will be paid for the three years immediately following the granting of a lease. Rent will be payable one-eighth of the crop grown, with the exception of years in which the average yield is less than five bushels to the acre.

Government will pay one-half of the taxes on the land, and the part in which the land is situated, and the municipality will pro-rate the monies among the various taxing authorities.

Any person who does not own land who is 18 or over and a British subject intends to become one may apply for a lease at a fee of five dollars.

Publication of the E.L.D. inquiry report issued by Judge Jackson, in which irregularities were said to be testimony to the part of officials was followed by a government announcement that the election of trustees for the irrigation district will stand out in the near future.

The existing board of trustees was dismissed by the Alberta Irrigation Council, and the Vacancy Commission was appointed. Hon. Solon Low has now announced that immediately preparations are completed the election of new trustees will be held. Reports from the district indicate that the three former trustees will stand for re-election.

Political activities of the week centred in the deliberations of Sociedad and Lethbridge, and the selection of Chester A. Ronning as leader of the C.C.P. in the provincial field. Mr. Ronning was born in China, and his parents, who became United States citizens, and he is a former U.F.A. member of the legislature.

Nomination of the new political leader was at the hands of Elmer E. Roper of Edmonton, who Tuesday was chosen president of the Alberta C.C.P.

Meanwhile, the first New Democracy-Social Credit convention to be held in the province was carried off at Innisfail, where Bow Valley delegates nominated Mr. W. E. Johnson, as standard bearer in the next federal election.

Alberta's tourist trade will receive with interest the news of the government's intention to complete surface of the entire 400-mile route between Edmonton and the international boundary by August 15. The announcement was made by Public Works Minister W. A. Fallon on his return from an inspection trip which covered southern highways. On completion of the main highway, which will be built on the Macleod-Lethbridge area; one between Medicine Hat and Redcliffe; one on the 15-mile stretch between Coleman and Frank, and one on odd jobs.

Largest business written in the history of the province is reported by the Alberta Hall Insurance Board this year, according Hon. Solon E. Low, Minister of Treasury. Two million three hundred and forty-one thousand acres of farm land involving a total liability in excess of \$10,000,000 are protected. Last year, 1,006,551 acres, involving a liability of \$7,115,126, were protected.

Losses to date are considerably lower than last year, the Treasurer reported. Some have been widely scattered, and less insurance is now being received in Edmonton in about the days. Trans-Canada airplanes will fly up the main highway at Montreal on Sunday at noon. Delivery will be made Monday.

Business men of Edmonton—and many former residents of the Old Country—are joyful over the news that with the trans-Atlantic mail service interrupted, all personal Airmail will be mailed in England will be received in Edmonton in about the days. Trans-Canada airplanes will fly up the main highway at Montreal on Sunday at noon. Delivery will be made Monday.

Negotiations which may have a far-reaching effect on highway transportation are now proceeding between railways and companies in the Dominion. Frank B. Board said Hon. W. A. Fallow this week, in announcing the suspension of regulation of the trucking industry. Suspension of the decision to license trailers will continue "until the whole situation has been reviewed to determine what action should be taken."

ALBERTA WINNINGS AT WORLD POULTRY CONGRESS

Word has been received by Hon. Mr. Mullen, Minister of Agriculture, that Alberta was second in winning honors at the Seventh World Poultry Congress recently held in Cleveland, Ohio. Mr. Geo. H. Scott, Edmonton, was first in the Old English Black Red Game class and Mr. J. Bird of Calgary was successful in placing first in the Liopleurus Game class.

This show is the largest one of its kind in the world and exhibits from practically every nation were on display.

A special feature of the Congress is the youth section, in which over 400 young people were registered this year. The received instruction in matters pertaining to poultry and took part in the judging competitions.

EASTERNS ENJOY TRIP THROUGH THE PEACE RIVER

Rev. F. E. Gyllenhal of Toronto and G. W. McPherson of Philadelphia are on a trip visiting isolated members of the New Jerusalem Religion, founded on the belief that the theories of the New Testament in Hamburg are divine revelations and constitute the second coming of the Lord.

Rev. Gyllenhal further added: "We believe the Lord has made his second coming not in person, but in the spirit, among the people."

The visitors spent some time in the Block, going to many remote parts to meet members of the faith.

## At the Churches

### CHRIST CHURCH (ANGLICAN) Grande Prairie

REV. T. DALE JONES, R.D.  
Rector  
Sunday, August 13  
(Trinity 10)  
9:00 a.m.—Holy Communion.  
3:00 p.m.—Baptism.

### Bank of Montreal

#### Crop Report No. 7

Montreal, Aug. 3.—Bank of

Montreal crop report, No. 8, issued today, is as follows:

### General

High temperatures without the normal precipitation of rain have been detrimental to crops throughout the Prairie Provinces, and while crop prospects over a wide area are not good, they are expected to prevent further deterioration. Serious decline in conditions have occurred in the Maritimes and in the southern and northern Saskatchewan and in the southern and central areas of both Manitoba and Alberta. Grasshoppers are numerous and are causing some damage to coarse grains in Saskatchewan, but the wheat crop has not been seriously affected. Pastures are in need of rain. In Quebec, the weather has been general during the past week and all crops have made good progress. Rain and moisture conditions are generally good, and the crop outlook as a whole is very satisfactory. Ontario's drought, which has been relieved by timely rains in all sections, and growing conditions are now favorable, with the exception of some areas in the Maritimes. Provinces crops have progressed satisfactorily and the outlook is promising.

Red hot weather has been beneficial, but rain is needed in some districts. British Columbia crops continue to show good progress under

favorable weather conditions, although rain and cool weather are urgently needed. Moisture in the northern areas is sufficient for the present, but rains would be beneficial. Elsewhere early fall wheat and wheat and sunflowers have come up well, but other crops, particularly in the south, are heavily damaged.

### Saskatchewan

Crops have deteriorated as a result of the hot, dry weather, and moisture is needed. Most of the northern areas are sufficient for the present, but rains would be beneficial. Elsewhere early fall wheat and wheat and sunflowers have come up well, but other crops, particularly in the south, are heavily damaged.

### Manitoba

Crops have deteriorated as a result of the hot, dry weather, and moisture is needed.

Manitoba is a central, north-central and northern areas crop remains favorable, although widespread rains are required to prevent further deterioration.

Grasshoppers are numerous and are damaging coarse grains in some districts.

### Alberta

How would you like to go for a motorcycle ride?

We were standing on the veranda of Kinuseo Falls Lodge when Alec asked the question. His voice was free of guile, so I readily replied that I would like to go for a motorcycle ride.

Reaching the bar, Marjorie was left on it while Alec and I tried to work the boat past into the deep water. The current was strong, and we were unable to get away from the bar.

Marjorie rolled up her slacks as far as they would go and waded out as far as she could. She was too small and the water was too deep for her to wade down. So I trudged behind Alec to the boat, all the while vainly striving to be as small as possible. Just as we reached the Falls, Marjorie was again chugging upstream. About four miles from Kinuseo Falls, we came to a small waterfall where Wolverine Creek runs into the Murray River. This was Alec's objective, and having reached it we were all back aboard "Fickle Fanny" again, chugging upstream.

Just as we reached the Falls, Marjorie was again chugging upstream. About four miles from Kinuseo Falls, we came to a small waterfall where Wolverine Creek runs into the Murray River. This was Alec's objective, and having reached it we were all back aboard "Fickle Fanny" again, chugging upstream.

## South Wapiti Area Now Alfalfa Seed Growing District

Following Visit of Dominion and Provincial Agricultural Officials It Has Been Set Aside For Growing Registered Grimm Alfalfa Seed.

(By The Tribune's Pipestone Creek Reporter)

PIPESTONE CREEK, Aug. 7.—An historic event in the history of Pipestone Creek and the surrounding country took place last Saturday night when, following the visit of a notable array of both provincial and Dominion agricultural officials, the South Wapiti district was set aside as an area for the growing of registered Grimm alfalfa seed.

The occasion was somewhat reminiscent of one day during the campaign when General Genghis Khan inspected what was left of the battalion. He was accompanied from twelve other generals.

### The Notables

The Dominion Department of Agriculture was represented by Mr. Foulds, chief grain inspector for western Canada. Mr. Foulds was accompanied by Mr. Cowans, Dominion Plant Protection Officer, who was supported by two members of his staff, Messrs. Robertson and Tompkins, who are in the district on seed inspection work.

Mr. E. C. Stacey represented the Beaverlodge Experimental Station.

Mr. W. S. Scarth, our District Agriculturist, was present on behalf of the Alberta Department of Agriculture.

A very representative gathering of local inhabitants attended the meeting, which was held in the schoolhouse. Mr. Herb Ritter was present and in the course of a humorous prologue welcomed the visitors on behalf of the community. He said the gratification felt by the people of the district at the interest shown in its welfare by both Dominion and provincial governments.

"Although chairman of the meeting," said Mr. Riggs, "I shall prefer to stand on the opposite side of a tree than sit in a campsite position in these home-made desks, under the shade of Rev. Mr. Wingfield, under the sun, with the heat of the sun, with modern desks that will obviate the harmful effects this old-fashioned seating has had on the children. We shall have a good time and the world stands up during this meeting." At the conclusion of Mr. Riggs' remarks several people rose with difficulty and remained standing during the evening.

### Mr. Foulds' Address

Upon his introduction to the audience Mr. Foulds traced the history of the growth of alfalfa in the West up to recent times, when the farmers have moved into northern districts from the drier areas. The tremendous growth of alfalfa, particularly for seed production, in the grey wooded soil areas, largely unsuited for grain growing, has amazed the Dominion officials. He who, fed up with continued wheat failures and depressed prices, are anxious to find a new source of income, provide a sure means of feed and be a distinct benefit in milk production.

Questioned by Mr. Ed. Sundin as to the benefits of registered seed production over ordinary commercial, Mr. Foulds said he had received last winter from his Department for testing a sample of seed from the United States at a price exactly double commercial price. The sample was guaranteed to contain no sweet clover, which could only be obtained from registered growers.

Mr. Foulds then stressed the im-

portance of doing away with sweet clover and outlined his plans for keeping the district clear of weeds.

During Mr. Foulds' address many questions were asked and much invaluable information upon procedure was learned by those in attendance.

Mr. Stacey, who had done much to assist local seed growers by placing his seed cleaning plant at Beaverlodge, at their disposal, was also present and able to give valuable advice. He suggested that an illustration station in this district might be possible, "for," said Mr. Stacey, "we are very good at asking for things and we always get what we want."

### MILLER WINS SOFTBALL CHAMPIONSHIP

Another great event in the history of the district also took place on Saturday last when the famous Mountain softball team won the league championship by defeating at Wembley a strong team from Huallen.

### FAUST NEWS

FAUST, Aug. 6.—Meeting Harry of Swan River Valley, he said his brother Wilford Hunt, had returned to live.

Frank Brown and his wife stopped overnight while on their way to High Prairie with a herd of horses and cows. They said they had already covered 800 miles from the Huallen.

Born to Mr. and Mrs. Max Paulisch, Friday, a daughter.

Pet Freisen, west of town, announces that his electric wire fence is a great success. One shock and an animal lacks no respect for that wire, says Pet.

Mr. and Mrs. Howardson were standing on opposite sides of a tree when a large bear, followed by lightening, struck the tree. They were set aside last week, and both received a rather severe shock.

Leaving Monday, eight boys from Faust and one from Driffield, under the care of Rev. Mr. Wingfield, went to Spruce Point, north of Kinuso, for a week of camping.

**Faust Remains In Dry Column With Majority Of 43**

FAUST, Aug. 6.—Vote on the beer parlor for Faust on Aug. 4 ended with 43 in the majority against beer. So Faust remains dry.

Universal excitement prevailed. At the previous vote for the beer parlor the drys were accused of running a "dry" of voters in who had no right to vote. This time the drys found a good deal to complain about. Several of their number were left to stand on the court that had justly adjusted. The four, two minors on the wet side on the list, ages 16 and 19. This, too, was watched, but not without excitement and suspicion.

But excitement leaped and feelings ran high when, before the time set to appoint scrutineers that two of the most outstanding "wet" men were appointed to represent the "dry" side. Thus all four scrutineers were "wet" men.

The one responsible for the appointment was asked, "Is it changed now?" That, too, was adjusted, but not for some minutes of speech that was all there was.

Votes of old citizens, some as long as thirty years naturalized, were tallied and feelings ran deep because they felt it was a needless affront. The draw committee would be made as an insult, walked out and lost her vote. Others, seeing the result, accepted the oath and no

more votes were thrown away on that score.

Except for the unusual number of challenges, the polling proceeded smoothly. The scrutineers were very precise in explaining how to mark the ballot, and the scrutineers were heard to remark that their opinions were correct. One said: "I was mad yesterday, but I have no complaint for today."

On the defeated side declaimed: "How easy it is for either side to exaggerate when in the heat of excitement."

The policemen from High Prairie patrolled the precincts very efficiently.

Ticket number 437, in the draw for the return trip to Vancouver by plane was held by Fred Cooke of Grande Prairie.

Wednesday afternoon of last week Merlyn Lewis got the thrill of a lifetime while playing his tennis ball matches. Merlyn had driven his car six and when he arrived at the distance his figure on the ball should be found. It was a foot out of bounds, about 100 yards. Merlyn then took his trusty No. 2 and blazed away, playing to the right of the green for the natural run. The ball took a turn to the green and finally ended in the cup for a birdie with a penalty stroke.

**CARD OF THANKS**

We wish to thank all our friends and neighbours for their kindness and help shown in our late bereavement. In the loss of our loved one. Especially do we wish to thank Rev. Mr. Currie and the choir for the beautiful service they sang.

Myrtle, Gertrude and Mrs. E. Haggard.

**CARD OF THANKS**

We wish to take this opportunity of thanking our many friends for the kindness shown and for the many floral tributes sent in the name of our beloved son and brother, Edwin.
